PTO-90C (Rev. 07-01)
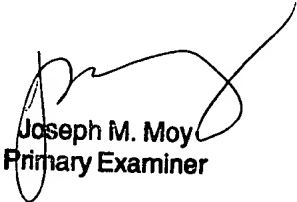

Serial Number:09/932820

An examination of this application reveals that applicant is unfamiliar with patent prosecuting procedure. While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skillful preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

Applicant is advised of the availability of the publication "Attorneys and Agents Registered to Practice Before the U.S. Patent and Trademark Office." This publication is for sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The response filed on 04/04/03 have not been entered and considered because for any response filed over 3 months from the date of the final rejection, an extension fee is required. Moreover, for this stage of the prosecution if applicant still intends to prosecute his application, a notice of appeal must be filed with the appeal fee required under 37 CFR 1.17(b) and with the extension time fee under 37CFR 1.136(a)

Any inquiry concerning this office action will be directed to examiner Joseph Moy, (703) 308-1145.
